

บรรณานุกรม

สมใจ ศิริโชค, **จุลชีววิทยาอุตสาหกรรม (Industrial Microbiology)**, กรุงเทพมหานคร, 2537

Stanbury, P.F. and A. Whitaker, **Principle of Fermentation Technology**,
Oxford: Pergamon Press, 1984 .

Karel, S.F., Libkcki, S.B. and Robertson, C.R. **The immobilization of whole
cell engineering principle**, 1985.

Nedovic, V., Leskosek-Cukalovic, I. And Vunjak- Novakovic, G, **Immobilised cell
technology (ICT) in beer fermentation – a possibility for environmentally
sustainable and cost-effective process**, 2003 .

Navoro, J.M. and Durand, G, **Modification of yeast metabolism by immobilization
onto porous-glass**. European Journal of Applied Microbiology , 1977.

de Ory, I., Romero-Luis E. and Cancero, BD, **Otimization of Immobilization
conditions for vinegar production. Sirim, wood chith and polyurethane
foam as carrirers for Acecobacter aceti**, 2004

Junter, G.A., Coquet, L., Ilain, S. and Jouenne, T, **Immobilized-cell physiology:
current data and the potentialities of proteomics**. Enzyme and Microbial
Technology, 2002.

Hilge-Rotmann, B. and Rehm ,H. J, **Relationship between fermentation capility and
fatty-acid composition of free and immobilized *Saccharomyces
cerevisiae***, 1991
